E025: Appendix Reference Part 1

DIP-SMC-PSO Educational Series

January 25, 2026

Overview

This episode covers appendix reference part 1 from the DIP-SMC-PSO project.

Part: Appendix

Duration: 15-20 minutes

Source: Comprehensive Presentation Materials

section0 Collaboration Workflow

****Multi-Developer Best Practices:****

****Branch Strategy (Future):****

- ****main:**** Stable, production-ready code - ****develop:**** Integration branch for features - ****feature/*:**** Individual feature branches - ****hotfix/*:**** Urgent bug fixes

****Pull Request Process:****

- Create feature branch from 'develop' - Implement changes, write tests - Run full test suite ('python run_tests.py') - Submit PR with description, test plan - Code review (1 approval required) - Merge to 'develop' (squash commits)

****Current Status:****

- Single developer (main branch only) - Future: Multi-developer branching strategy
